

LOOKING FOR A CHANGE IN YOUR HOME? TRY OUT THESE REMODELING IDEAS!

1

ADD A NEW COAT OF PAINT

The easiest way to remodel your home is by adding a new coat of paint. The new color you chose will help refresh the whole room; for example, illumination reflects better on a room with a light color, making it feel more spacious.

2

TRANSFORM ONE WALL INTO YOUR GALLERY

You can refresh a room by hanging multiple frames of art or photographs on one wall. The idea is to lead all the attention in the room to your gallery wall. You can add any wall hangings, so don't be afraid to be creative.

3

USE THE LIGHT IN YOUR FAVOR

You can change the appearance of your home by adjusting the lighting, both natural and artificial. You can change some light fixtures or upgrade your old light bulbs for LED ones, or add more ways to let the sunlight in, like a skylight.

4

GIVE ATTENTION TO YOUR FRONT DOOR

The easiest way to remodel your home is by adding a new coat of paint. The new color you chose will help refresh the whole room; for example, illumination reflects better on a room with a light color, making it feel more spacious.

5

INSTALL A BATH VENT

Installing a ventilation fan in your bathroom will help you prevent foggy windows and all humidity-related problems, including mold. While installing the vent, you could also install a skylight to improve illumination.
